Journal of Electronic Science and Technology (JEST) is soliciting original manuscripts for **Special Section on Energy-Efficient Technologies—Crowd Energy Applications (EET-CEA)** which appears on JEST periodically. This Special Section intends to bring together the state-of-art research results and industrial applications of EET-CEA. Prof. Teufel chairs the special section that focuses on CEA. Authors are invited to submit unpublished papers, which are not under review in any other conference or journal, in the following topic areas, but not limited to:

Theoretical, experimental studies and reviews on Crowd Energy applications, decentralized energy systems, blockchain technology for energy market and smart environments.

Prof. Dr. Stephanie Teufel (right) and Dr. Anton Sentic (left) present the Crowd Energy Model to the State Council of the Canton of Fribourg.

NEW on ScienceDirect®
www.elsevier.com

Benefits and Responsibilities of Authors:

- Rapid peer-review process: 20 days for the initial review cycle.
- The accepted papers will be published for free and Open Access (OA) for readers.
- The accepted papers will be OA on ScienceDirect after formal publication.
- All the accepted papers will be "online first" published on JEST website with DOI in 4 weeks after the acceptance.
- All authors must sign the Copyright Agreement with JEST, which can be downloaded from <http://www.journal.uestc.edu.cn>.

Quick Submission Way:

- Submit WORD or PDF full manuscript and JEST Registration Form to journal@uestc.edu.cn or directly to Guest Editor Prof. Teufel (stephanie.teufel@unifr.ch).
- All necessary files, such as JEST Template and JEST Registration Form, can be downloaded from <http://www.journal.uestc.edu.cn>.
- For inquiries for this special issue, please contact journal@uestc.edu.cn.

Important Time:

- This call for papers is always effective.
- Submission Deadline for this Issue: June 30, 2019.
